Marketer

June 2023 - Present (2 years 10 months)

I work with small and mid-sized businesses to structure client acquisition, processing, and operational workflows. My focus is on combining marketing systems with automation tools to create scalable, end-to-end processes.

Key Responsibilities:

- Coordinated paid acquisition workflows (Meta Ads, Google Ads).
- Designed funnel logic, CRM integration, and structured lead intake.
- Developed and deployed 40+ Telegram automation systems using Python (aiogram, python-telegram-bot).
- Integrated the ChatGPT API for intelligent client interaction.
- Deployed and maintained automation systems on Ubuntu VPS servers.

Key Achievements:

- Automated up to 60–70% of repetitive client interactions.
- Built scalable acquisition-to-processing systems that significantly reduced the manual workload for managers.

Managed 50+ incoming leads daily through AmoCRM and maintained structured pipeline visibility.

Key Achievements:

- Sustained structured processing in a high-load environment.
- Improved follow-up discipline and CRM transparency.
- Reduced communication gaps between departments.
- Formalized client handoff processes.

Lazertag Avanpost

Branch Manager

June 2023 - November 2024 (1 year 6 months)

Russia

Led a team of 7 employees and oversaw full operational performance for the branch.

Key Achievements:

- Managed service operations for 1000+ customers monthly.
 - Recruited, trained, and stabilized team performance.
 - Maintained financial accountability and performance discipline.
 - Reduced operational bottlenecks through structured task allocation.
-
